Course rating

4 Indicate your agreement with each statement

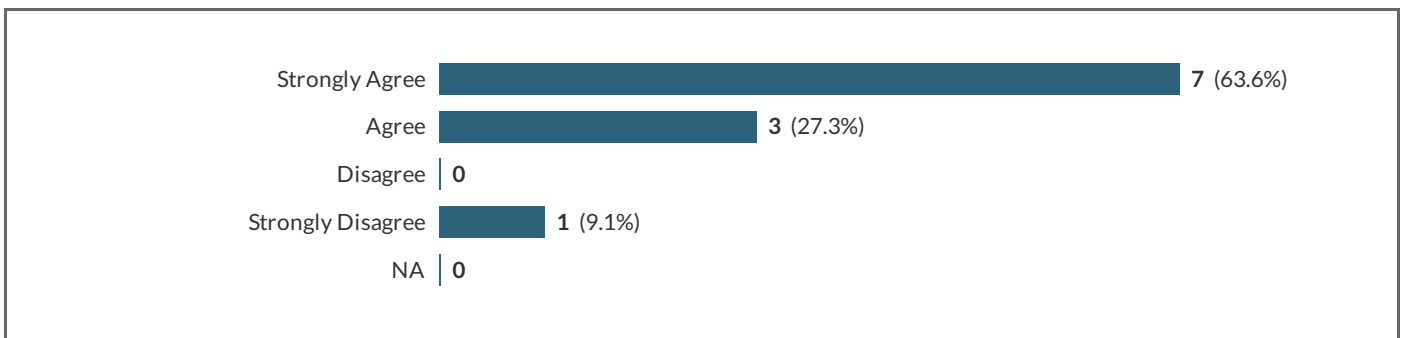

4.1 The overall workload was manageable

4.1.a The overall workload was manageable

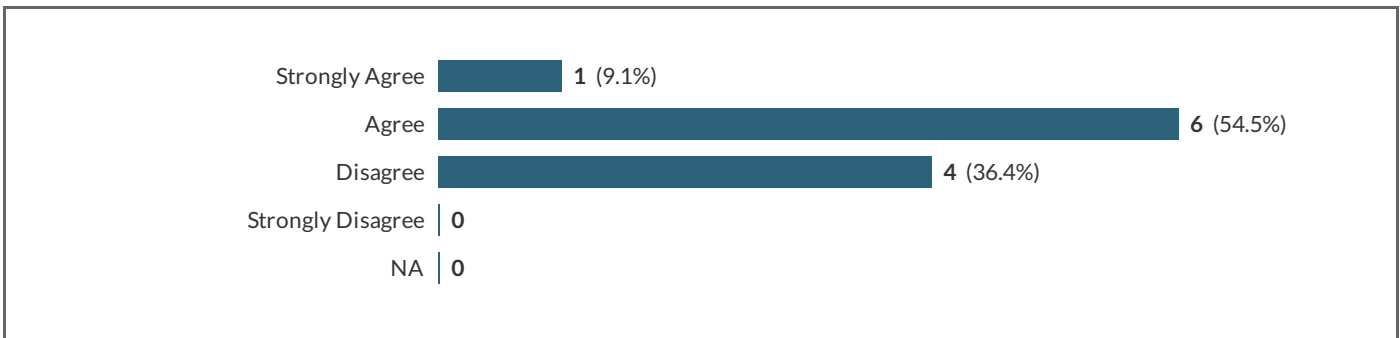

4.2 This was a challenging course

4.2.a This was a challenging course

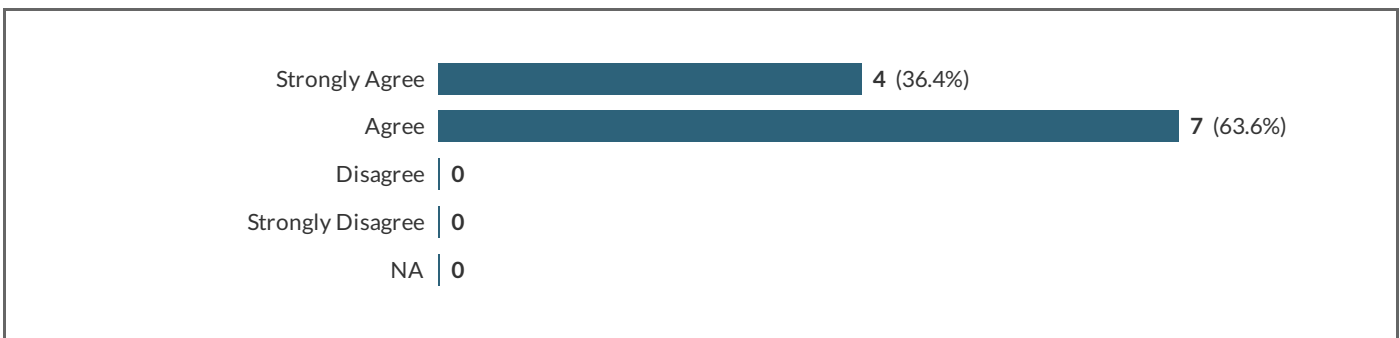

4.3 The course organisation was good

4.3.a The course organisation was good

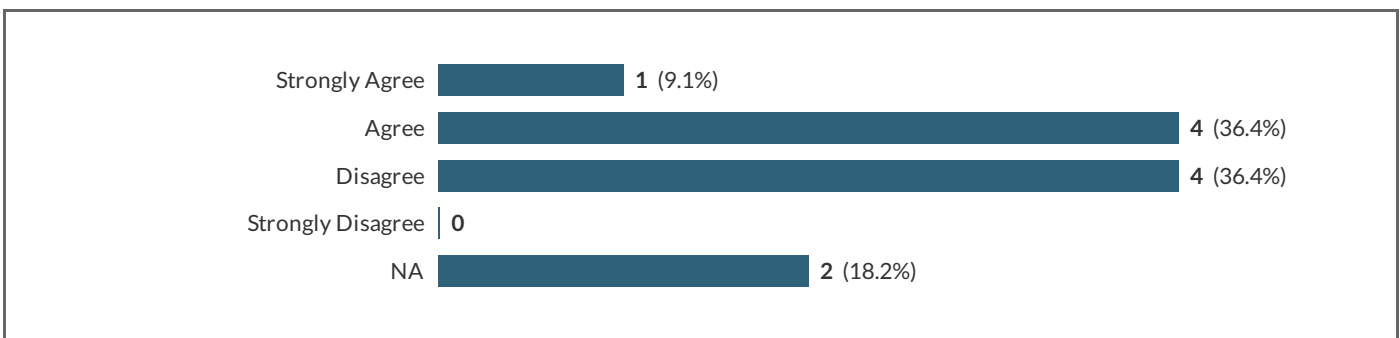

4.4 I learnt a lot from this course

4.4.a I learnt a lot from this course

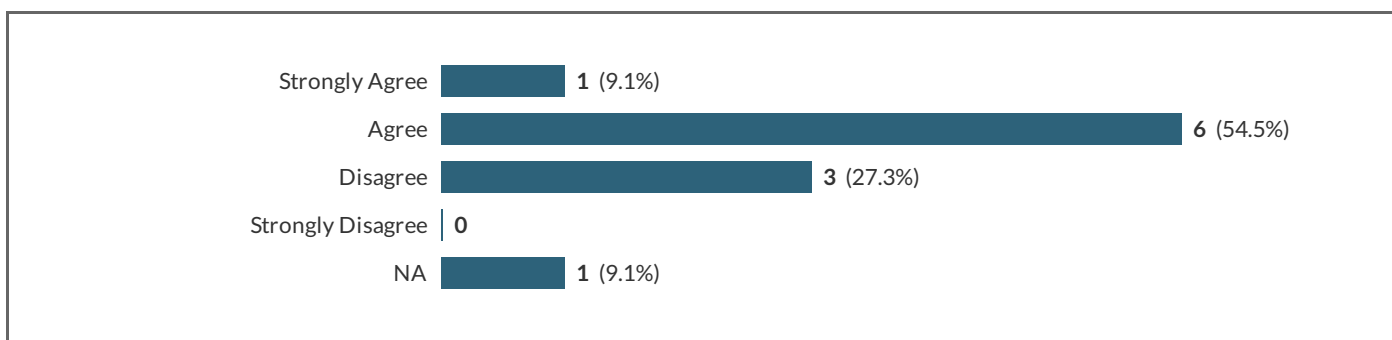

4.5 The course materials (slides, handouts and/or textbook) were good

4.5.a The course materials (slides, handouts and/or textbook) were good

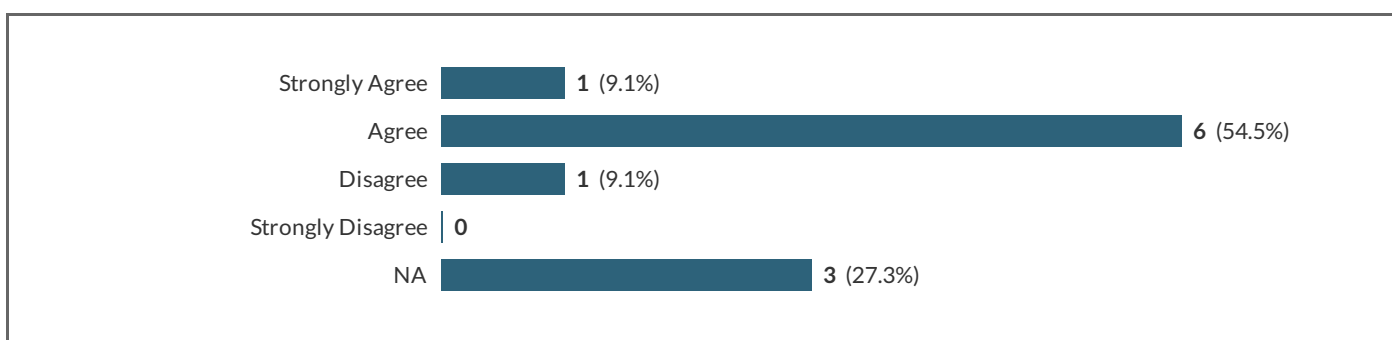

4.6 The presentation skills of the lecturer were good*

4.6.a The presentation skills of the lecturer were good*

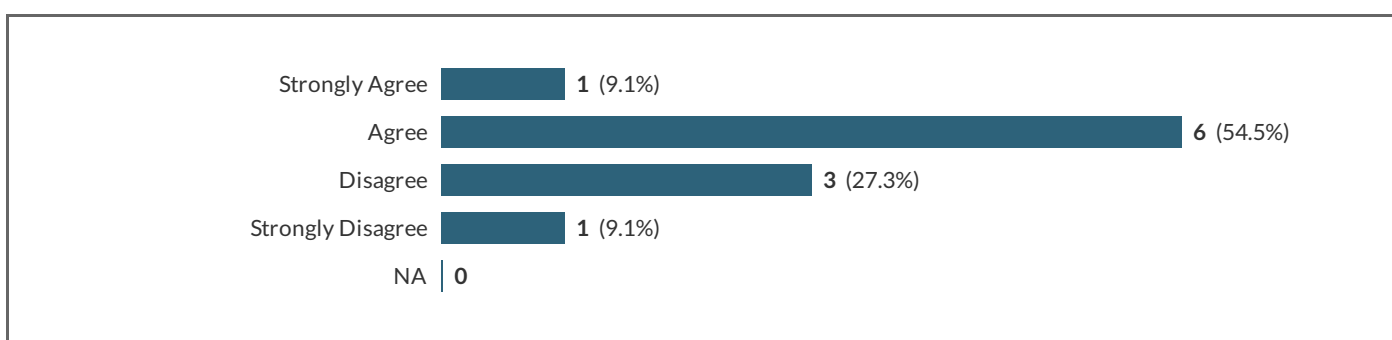

4.7 The lecturer was approachable and was happy to answer questions*

4.7.a The lecturer was approachable and was happy to answer questions*

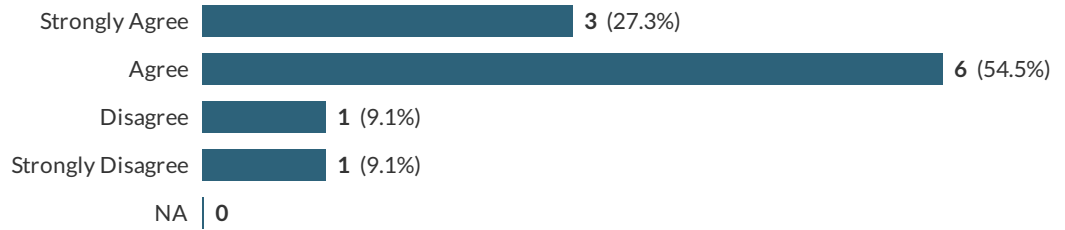

4.8 Tutorials/practicals helped develop understanding and problem-solving skills

4.8.a Tutorials/practicals helped develop understanding and problem-solving skills

4.9 The tutor/demonstrator was helpful

4.9.a The tutor/demonstrator was helpful

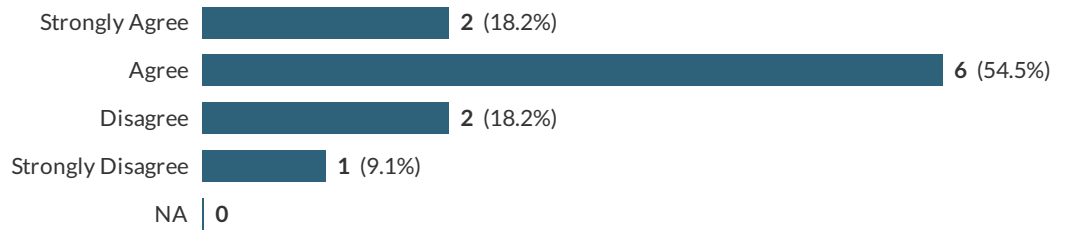

4.10 I was happy with the timing and detail of my coursework feedback

4.10.a I was happy with the timing and detail of my coursework feedback

4.11 I would recommend this course to other students

4.11.a I would recommend this course to other students

6 What would you say to students considering taking this course?

Showing all 10 responses	
I would warn them that this is a very difficult course, but it is also very useful and rewarding	26641-26635-4046118
Good eye opener to the world of computer programming	26641-26635-4044849
It's unlike studying anything from the humanities/social sciences. It requires a totally new way of thinking and problem solving. You also absolutely have to concentrate and work throughout the semester.	26641-26635-4048548
Useful course for learning C but has a steep learning curve	26641-26635-4051188
its an excellent course! CS50 in harvard ranks the most popular course for freshman this year. This goes to show how important knowing a programming language is.	26641-26635-4072079
C may be a bit dull to learn as a first language but the satisfaction you get from developing solutions to the given problems is worth it. Lots of lab time is necessary though so don't approach it half-heartedly!	26641-26635-4072583
It is a useful course for understanding computing, it gives you a different view of the devices and programmes we use every day	26641-26635-4073298
keep up with labs and tutorials. they say you don't programming background but you do.	26641-26635-4080128
Keep up with tutorial work, i think it pretty obvious at the beginning if your struggling get a tutor, don't wait to see if you'll get better. They say you don't need programming background but ideally you do	26641-26635-4080143
It's challenging.	26641-26635-4080442
