

Decision Making in Robots and Autonomous Agents: Homework Assignment 2 (Semester 2 - 2018/19)

Subramanian Ramamoorthy

25 February 2019

1 Instructions

- This homework assignment is to be done *individually*, without help from your classmates or others.
- Solve all parts of the question and provide your **complete** solutions (with adequate reasoning behind each step, and citations where needed) in a computer-printed report (pdf format, preferably).
- Submit electronically (including all electronic files associated with the assignment).
- This assignment will count for 20% of your final course mark. It is due at 4 pm on 22 March 2019.

Good Scholarly Practice: Please remember the University requirement as regards all assessed work for credit. Details about this can be found at:

<http://web.inf.ed.ac.uk/infweb/admin/policies/academic-misconduct>

2 Question

Please visit the following page on github for a description of your assignment questions, and initial code to get you started with this assignment.
