

Common Java problems

Problems Declaration Console Call Hierarchy @ Javadoc

0 errors, 22 warnings, 0 others

Description

- Warnings (22 items)
 - AdapterView is a raw type. References to generic type AdapterView<T> should be parameterized
 - AdapterView is a raw type. References to generic type AdapterView<T> should be parameterized
 - Attribute minSdkVersion (9) is lower than the project target API level (10)
 - Switch case may be entered by falling through previous case. If intended, add a new comment //FALL-THROUGHS on the line
 - The import android.app.ListActivity is never used
 - The import android.database.Cursor is never used
 - The import android.database.sqlite.SQLiteDatabase is never used
 - The import android.provider.BaseColumns._ID is never used
 - The import android.util.Log is never used
 - The import android.util.Log is never used
 - The import android.widget.SimpleCursorAdapter is never used
 - The import android.widget.TextView is never used
 - The import android.widget.TextView is never used
 - The import android.widget.Toast is never used
 - The import android.widget.Toast is never used
 - The import robbie.android.Constants.LOCATION is never used
 - The import robbie.android.Constants.NAME is never used
 - The import robbie.android.Constants.PRICE is never used
 - The import robbie.android.Constants.STYLE is never used
 - The import robbie.android.Constants.TABLE_NAME is never used
 - The import robbie.android.Constants.TYPE is never used

Problems @ Javadoc Declaration Progress Console LogCat

0 errors, 13 warnings, 0 others

Description

- Warnings (13 items)
 - The value of the field PlacesFragment.TAG is not used
 - The value of the field PlaceFragment.PlacesQuery.TYPE is not used
 - The value of the field PlaceFragment.PlacesQuery.LONGITUDE is not used
 - The value of the field PlaceFragment.PlacesQuery.LATITUDE is not used
 - The value of the field PlaceFragment.PlacesQuery.DESCRPTION is not used
 - The value of the field PlaceFragment.PlacesQuery._ID is not used
 - The value of the field IntentFragmentActivity.TAG is not used
 - The import android.util.Log is never used
 - The import android.support.v4.app.FragmentActivity is never used
 - The import android.content.Intent is never used
 - The import android.app.Activity is never used
 - Class is a raw type. References to generic type Class<T> should be parameterized
 - Class is a raw type. References to generic type Class<T> should be parameterized

Import is never used

```

import android.app.ListActivity;
import android.content.Context;
import android.content.Intent;
import android.database.Cursor;
import android.database.sqlite.SQLiteDatabase;
import android.os.Bundle;
import android.view.View;
import android.view.ViewGroup;
import android.widget.AdapterView;
import android.widget.AdapterView.OnItemClickListener;
import android.widget.AdapterView.OnItemClickListener;
import android.widget.ArrayAdapter;
import android.widget.CursorAdapter;
import android.widget.ListView;
import android.widget.TextView;
import android.widget.Toast;
    
```

Must override a superclass method...

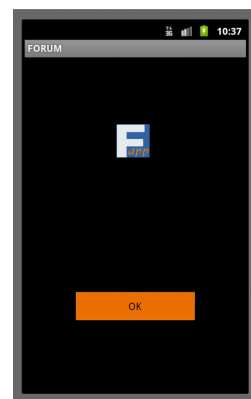

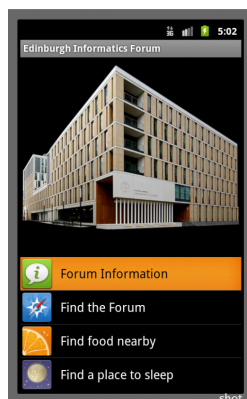

Problems @ Javadoc Declaration Progress Console LogCat

9 errors, 2 warnings, 0 others

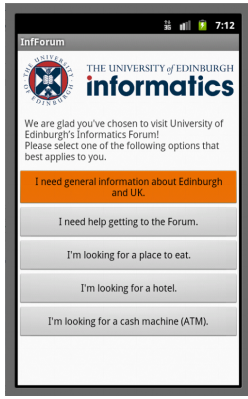

Description

- Errors (9 items)
 - The method compareTo(Event) of type Event must override a superclass method
 - The method getCount() of type EventListAdapter must override a superclass method
 - The method getCount() of type LocalListAdapter must override a superclass method
 - The method getItem(int) of type EventListAdapter must override a superclass method
 - The method getItem(int) of type LocalListAdapter must override a superclass method
 - The method getItemId(int) of type EventListAdapter must override a superclass method
 - The method getItemId(int) of type LocalListAdapter must override a superclass method
 - The method getItemId(int) of type LocalListAdapter must override a superclass method
 - The method getView(int, View, ViewGroup) of type EventListAdapter must override a superclass method
 - The method getView(int, View, ViewGroup) of type LocalListAdapter must override a superclass method
- Warnings (2 items)
 - The import android.util.Log is never used
 - The value of the local variable transportsList is not used
