Consider the accompanying slide deck (prism.pdf).

- (a) Can you identify the source and purpose of the deck? Why is it publically available?
- (b) Identify the best and worst features of the deck. Pick one slide, and single out good and bad features. (Feel free to write directly on prinout of the slide.)
- (c) Would you consider this deck to be, on balance, to be a good or bad example of how to prepare a presentation?
