

Computer Security

Tutorial 8

Margus Lind
School of Informatics
University of Edinburgh

1 More Web Security - XSS

Google has provided a great online game to help learn about Cross-Site Scripting. For this tutorial you will be playing that game. You may find using a web proxy useful (see last weeks tutorial sheet), however, this is not strictly required to succeed in this game.

- Visit <https://xss-game.appspot.com>
- Enjoy, have fun, and learn XSS.

Good luck!
